

Call for Papers

Margin: The Journal of Applied Economic Research

The National Council of Applied Economic Research invites papers for publication in its quarterly journal, now being produced and marketed internationally by Sage Publications India.

Margin is a refereed journal and includes papers of national and international significance. We invite papers in any area of applied economics that make a significant methodological contribution in applied economic research or contribute to policy discussion. They can relate to any branch of applied economic research, and may even report interesting findings from research projects, including empirical research of national or international scope and conceptual viewpoints that contribute to policy discussion. Our aim is to make the new *Margin* an important source of analysis on policy issues for India and other countries, especially in Asia.

Additional details on the journal, its editorial board and manuscript submission can be found at the website: <http://mar.sagepub.com>.

Papers can be sent to managingeditor.margin@gmail.com.
